

Me and My Epilepsy

Hi,

My name is

. I was diagnosed with

epilepsy when I was years old. I have

epilepsy (syndrome).

My doctor's name is

Having epilepsy means that you have seizures. There are lots of different types of

seizures. I have

seizures.

Just before I have a seizure I

During a seizure I

After a seizure I

Sometimes certain things can make me have a seizure (triggers). These include:

To help with my epilepsy, I take medication. My medications are

Medications I have tried that didn't work include:

I've also had some tests. Some of the tests I've had include

When I have a seizure, it's very important to

You don't have to call an ambulance until
